Draft Elliot Goodger Memorial Park Master Plan

Community Survey – Question 12

“Do you have any other comments you would like to make in relation to the Draft Elliot Goodger Memorial Park Master Plan?”

1	We would like to continue to be involved in the process as members have clearly expressed that they are rather worried about the move until we have seen us drawn into the Karbeethan Master Plan and have a home for the track to be moved to. Some members were also concerned about the track moving to the other side of Gawler and further away from the Barossa side of town.
2	I can agree with the moving of the bmx track but the proposed new one would have to be up to a reasonable standard. The has been a lot of unpaid volunteer work been done over the years by numerous community members with the infrastructure to match
3	I think strong consideration should be given to moving Gawler Dog Training Club to a larger venue where they might be able to be conteners to host the Dogs SA State Agility Championships or perhaps even an agility nationals (which is due to come back around to SA in 2028). A States often needs at least 3 rings, a nationals 8 and I know grounds are often hard to come across when planning for these big events. I think Gawler needs to think to the future and how the dog club might grow in future and take that into consideration. Consider that the club provides a service with extremely affordable dog training and this needs to be something that is available for the future so that dog owning members of the public are able to train their dogs. I have a lot more thoughts and may send through as a separate email.
4	A new Gawler bmx facility must be built before the existing is bulldozed and be like for like with the addition of a new clubhouse/canteen/ toilet facility
5	If the bmx club can not remain it needs to establish a new track or club area before being closed.
6	The Master plan encompasses all users of the area and will help to bring sporting and community events to Willaston/Gawler
7	This is a much needed redevelopment for a club that is fastly out growing its current facilities. The expansion and redevelopment would not only help all clubs and groups thrive and be more welcoming, but it would also open up for more people from outside to join and start using the facilities. Currently, it is old, out dated and unsafe, these redevelopments are urgently needed.
8	add some local artists work to be displayed, and maybe a area for a weekly or monthly market.
9	For this to happen in the not to distant future, as the barossa and playford councils are years ahead for their community growth.

10	My family and I have used the park for over 50 years. I want my two young sons to be able to enjoy the park and my wife would want to be able to play football with upgraded inclusive facilities. I also use the area to walk my dog, run and for functions. The upgrades would see more community events and we can't wait to hopefully see it come to be.
11	This upgrade will be a fantastic opportunity for our community to keep up to date and welcome many new families to the site. Without this opportunity I struggle to see the clubs being able to keep up with local growth and development.
12	If relocation BMX club, please give them a better canteen facilities/club room. The current canteen is very basic and we don't have club rooms. Would be good to have a proper kitchen and club room like the other SA BMX Clubs.
13	How many years is this going to take? Does the bmx club get to stay until there new track is complete finished with track, clubrooms, toilers, etc???
14	No
15	With a proposed location of Karbeethan reserve, I hope the council can communicate with the local community at the bmx and get some ideas of how the track can stand out from the rest. If the council have the opportunity to build a fantastic facility which will see visitors from around the state, do it properly.
16	Where will the Willaston netball club be relocated while this is under contract
17	SANFL supports the improvement in football (and community) facilities for the Willaston Football Club at Elliot Goodger Memorial Park. I would be happy to discuss the project in further detail and the opportunity to apply to the SA Football Facilities Fund for seed funding once plans are progressed.
18	A gym in the club room facility's or ice baths
19	No
20	Just get it right first time round.
21	It needs to happen , long overdue
22	Very excited for the proposal to go ahead. Will benefit a lot of people living in Gawler with great facilities.
23	Stop wrecking gawler/ Willaston this council just makes things worse and spends are money doing it
24	Great initiative
25	Great move definitely in need of an upgrade as football is very diverse and wfc is the leader in the women's football both male and female change rooms would be great also no wheelchair access is available or adequate for the elderly as the club and change rooms were probably built back when all of the above stated were not discussed

26	It would be good to have the Scout Hall “upgraded” or at least a new purpose built storage shed to replace the old shed that was broken into. I did note that there was a shed listed so unsure if it was for the Scout Group. It would be good to bitumise the existing car parking area on Holmes St and the area through the gate at the Scout Hall.
27	My daughter plays football for the club and yes it’s in dire need of upgrades as the numbers are booming
28	Please support the club they provide important service to our community. As a rate payer I feel council has let all the clubs down, especially with up keep. Help them to exceed with grants and in return you will have a happy supportive community. This is good for mental help, keeping fit and family fun activities.
29	This project is long overdue and should be considered a priority.
30	Thanks for providing information morning on 15/6/24 and the input. I wish I left convinced that more planned toilets were taken on board especially by the disability parking space (15) and by the parking area (4) (3). Maybe goes without saying but ensure electronic scoreboard and back up score board. Taller goal posts point posts as the current posts no longer acceptable especially going forward to attract any higher level preseason games (SANFL/AFL). Retain seating in front of changerooms family friendly alcohol free. Consider retaining old changeroom terraced stand for a time as the rooms could be utilised by visiting clubs. Thanks for providing chance to contribute, an excellent plan to improve the amenity. 2025/26 timeframe?
31	I m concerned that it appears that the clubroom building multi level sports community & community facilities are situated at the northern end of the oval (obviously to be inclusive of netball & football & cricket). This is less than ideal for football & cricket being played on the senior oval & the preferred option is to be in a side-on viewing position. May I suggest that a compromise would be to situate the facility as close to the (16) area & re-site the netball courts closer to that facility & readjust the Rotary Clubs & Air Force cadets & the parking area (28). I also recommend that in the plans for the clubroom building that together with a “timekeepers box (room)”, there be a “press box” & “Streaming area/room” for modern day provisioning of sporting media coverage. I am very concerned at the draft master plan siting of the clubroom building.
