Gawler

Gawler

Gawler has a great network of bike trails and walking paths to take on a journey past impressive architecture and heritage buildings as well as beautiful parks and rivers.

Church Hill State Heritage Walking Tour (2.5 km)

Gawler's Church Hill area was declared a State Heritage Area in 1985, only the third proclaimed in South Australia at the time. The walking tour takes in houses and outbuildings, original slate and bluestone kerbs, and many other treasures of yesteryear.

Cultural Walk (2.5 km)

This loop walk around the centre of town takes in many of Gawler's cultural and historic sites, parks and rivers. The walk starts and ends at the Visitor Information Centre and can be done in conjunction with the Church Hill Walking Tour.

Historic Main Street Walking Tour (2.5 km)

Immerse yourself in colonial history as you take an easy stroll past 60 heritage listed buildings in Gawler's main street, Murray Street. Satisfy your thirst or hunger at one of the many cafés or pubs along Murray Street.

Gawler Driving Tour (22 km)

The Gawler Driving tour will take you on a journey where you will appreciate the extent that Gawler contributed to the development of the State. Marvel at Gawler's merging of the old with the new on this sign posted route.

Tapa Pariara Path (8 km)

The Gawler Rivers Path (Tapa Pariara) offers a chance to cycle or take a leisurely stroll along the pretty North and South Para Rivers. Interpretative panels provide information on the history of the area, native birds and vegetation.

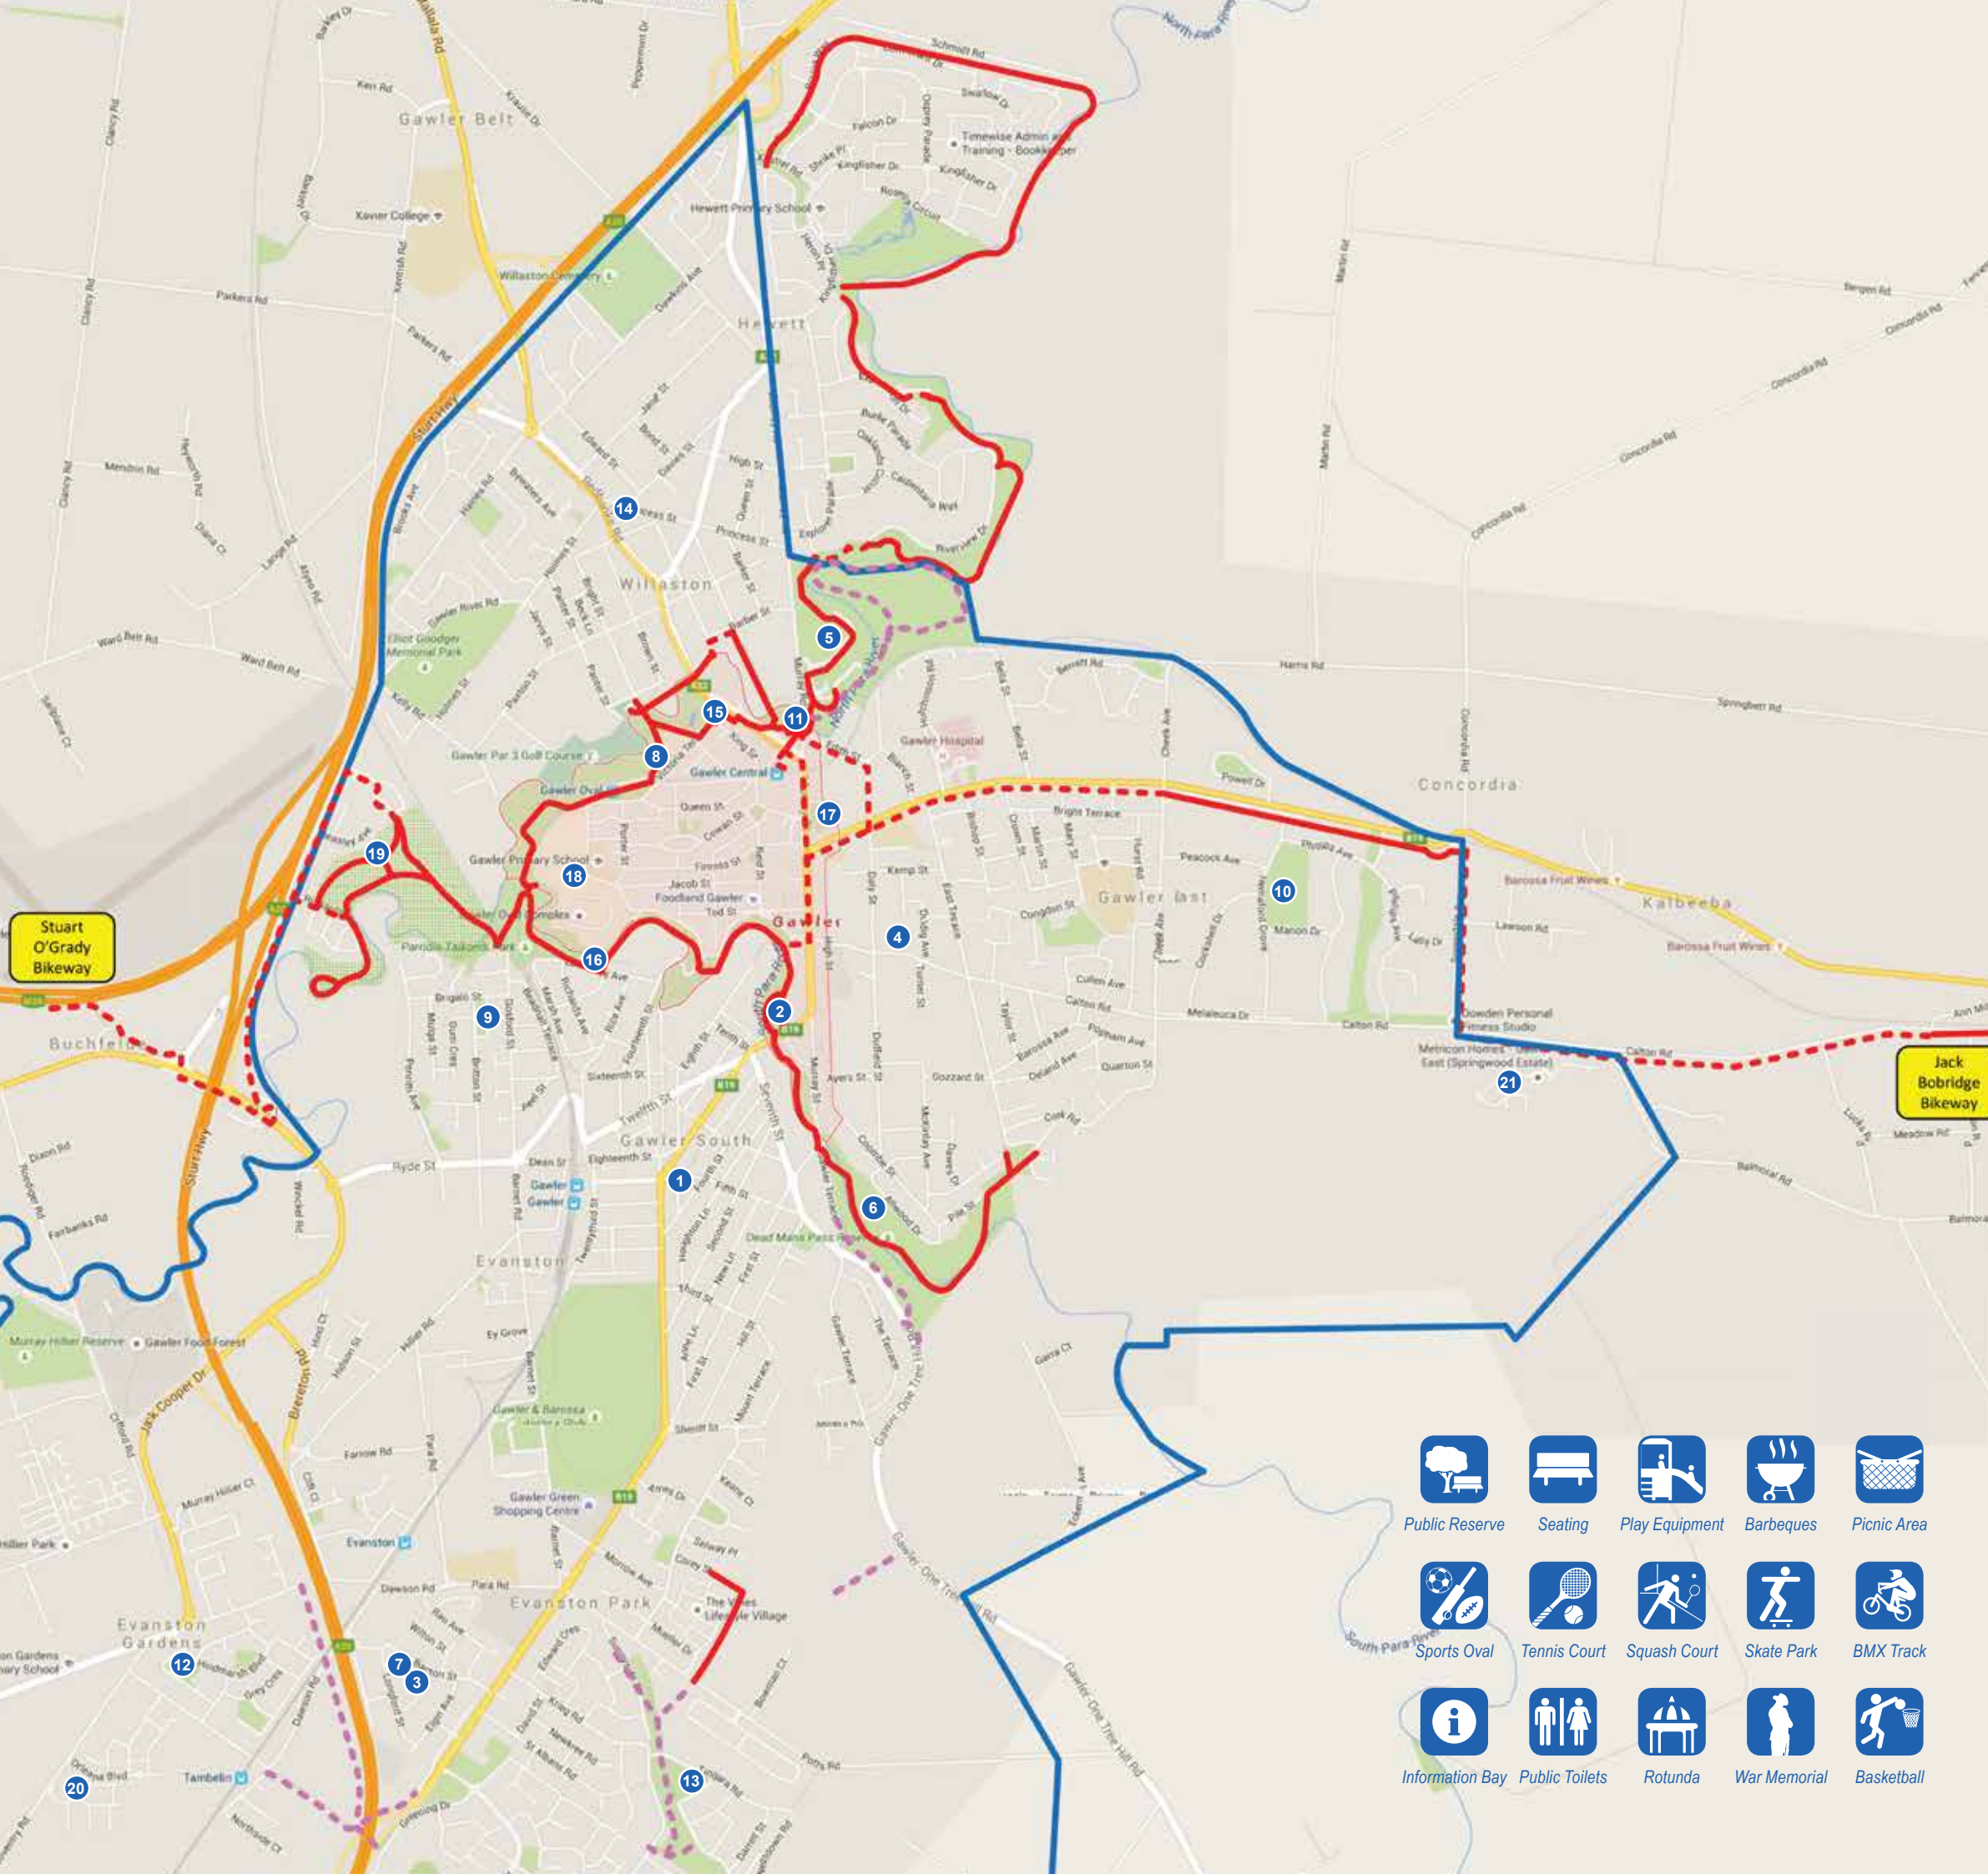

This path links to other shared paths in Gawler, the Jack Bobridge towards Tanunda and the Stuart O'Grady onto Adelaide.

E.H Coombe Walking Tour (4 km)

This 4 kilometre walking tour takes approximately 1.5 hours and commemorates the life and achievements of EH Coombe in Gawler, where he was born and lived for 56 of his 58 years.

Brochures and maps for these trails and tours are available at the Visitor Information Centre.
