

LIBRARY NEWS

April 2021

Welcome to the fourth edition of the Gawler Library's **Shelf Talk** newsletter for 2021! We're so pleased you've grabbed yourself a copy and hope you enjoy all the good stuff we've packed inside for you to read.

Last month we met Christine - one of our indispensable library casual officers who work at the Gawler Public Library. For this issue, you will get to know more about our Library Programs Officer, Melina. You may be familiar with her, having seen her at many of our library events and working at both our locations.

Meet **Melina**...

Melina began working for the Gawler Public Library in 2008. She works in our programs and promotion area and has spent many years working with children & youth. Melina is happiest when she gets to create and design new events for our Gawler community. You'll usually find Melina relaxing in her garden on the weekends. She loves to bushwalk, camp on the beach and spend time with her family.

The Library was closed over the Easter long weekend at both locations, however our digital library, through the Libby app, is always available 24/7. So if you find you need something to read, just download the app and start your browsing. You only need your library barcode and PIN. We have lots of great fun activities, events, programs and ideas to keep your kids busy over the April school holidays. Check out the event calendar over the page and stay tuned to our Facebook page for all the news and updates. We will also post lots of great fun ideas and activities to do with your little and big kids.

EVENING READS

FILM ADAPTATIONS...

It can be a very hit or miss deal. You hear about your favourite novel being made into a movie or TV series and you get excited, but what if they can't do it justice? Authors choose their scenery, characters, plot points very carefully, sometimes over the span of decades. A film or TV series

adaptation is very polarising amongst readers. We all have our favourite books that have become great movies or TV series, sometimes, dare I say it, even better! Then there's the duds, and there have been many! The opportunity to make something amazing, but the movie

falls flat and far beyond expectations. Obviously the old adage is true that you can't please everyone, so naturally there are always bound to be fans that are unimpressed. Every person will have a different interpretation of the book they've

read. This is what makes book clubs so interesting. You've all read the same book, but all come together with varied impressions.

What are your picks for best film adaptations? Or, which movies make your worst list?

WEEKLY WIND DOWN

Stories with amazing visual descriptions

Have you ever read a book with such amazing visual descriptions of places that when you see a specific place in the world your brain immediately recalls that place described in the book? Plenty of authors have been inspired by the amazing landscapes we have around the globe. From the wilds of New Zealand and Scotland and the culturally rich villages in Europe and Asia to our own diversely scenic country Australia. Sometimes these visual

descriptions are faithfully translated into movies or TV shows, but usually they remain their best version in your imagination, free from influence and interference. Which books have you read with landscape and location descriptions that have never left you? Have you ever been inspired by a place to read a book or vice versa?

The article reached by the QR code to the right has a series of photographs from a couple who've been travelling around the world and taking their photos with a more enchanting perspective.

Nature's Collage Art Exhibition

Monday 29 March - Friday 30 April* (9.00am-5.00pm Mondays-Fridays and 9.00am-1.00pm Saturdays) - Institute Hall, First Floor, Gawler Civic Centre

Natures Collage: Works using realia...creating scenes of habitats, and works using leaves, bark, seeds and natural fibres. Having no visual memory is quite a challenge for an artist! Tineta starts each piece knowing only the medium/technique she will use - she cannot

pre-visualise anything - and experience each work as it develops. Tineta has always enjoyed being out in nature - beachcombing and collecting leaves, bark and seeds. Their variety fascinates her. Tineta's artistic journey therefore began by using these objects - exploring textures and re-creating environments nature provides us. Natural collage became her medium. Her heritage piece "Rusting Away," made entirely from rusted metals and wood, won the People's Choice Award in the biennial Gawler Art Award in 2018. FREE entry...All welcome.

** the exhibition space may be closed during other Gawler Civic Centre events/shows, or the set-up of these.*
